

## Lansing Community College

### Business and Economics Department Section Syllabus – ECON 202 for Fall 2015 Hybrid – CRN 40076 Full 16-week semester 20 Aug thru 10 Dec, 2015

---

#### Course and Section Information:

**Course Code:** ECON 202

**Section:** CRN 40076

**Title:** Principles of Economics – Macro

**Semester:** Fall 2015

**Class Meetings:** Th 4:10-6:00 pm room: GB 304 plus online activities on Desire2Learn and [macro.econproph.net](http://macro.econproph.net)

#### Instructor & Contact Information:

**Instructor:** Jim Luke

**Office:** LCC Main Campus, Gannon Building, Room 191.7 (in Business & Economics Dept. offices)

**Phone & Voice Mail:** 313-550-8884 (cell + text) 517-483-5384 (office)

**Email:** [lukej@lcc.edu](mailto:lukej@lcc.edu) (preferred for email)

**Office Hours:** Th 10 am – 12 noon; 2 pm – 4 pm; Appointments are recommended. Phone conferences are also possible but please call for an appointment first. As I am frequently called into college-related meetings and will be on campus on other days also, it is best to request an appointment and to check [Where's Jim](#) for availability.

---

#### I. Course Code: ECON 201

Credits	Lecture hrs equivalent
4	64

#### II. Prerequisite

- Reading Level 5
- Math Level 4

#### III. Course Description

This course addresses the theory of national income, employment and the price level, and government fiscal and monetary policies designed to influence aggregate economic activity. It also addresses exchange rates, international financial relationships, and economic growth.

#### IV. Instructional Materials

##### A. Required Textbooks:

Taylor, Timothy; ***Principles of Economics, 3rd Edition***, published by Freeloadpress, 2014, ISBN: 1-930789-26-2 (earlier editions are also acceptable)

**Why:** Traditional economics textbooks generally cost \$150-\$190, which I consider too much. Instead I use a textbook that is available direct from the publisher at [www.textbookmedia.com](http://www.textbookmedia.com).

**Where to get the textbook:** A direct link to the Taylor book in the Textbookmedia.com catalog is here: <http://www.textbookmedia.com/Products/ViewProduct.aspx?id=3592>.

**What to get:** Please note that the book is available in 4 different options:

- Online only – not printable and not recommended without a printed copy
- Digital Bundle: online book plus downloadable .pdf files of each chapter
- Hybrid: a printed copy is sent to you (a bound 750 page traditional paperback textbook) plus the online version – **RECOMMENDED**
- iPhone/iPodTouch Version only not printable and NOT RECOMMENDED unless you also get the printed book

You may choose whatever option suits you. HOWEVER I STRONGLY RECOMMEND GETTING A PRINTED OR PRINTABLE VERSION. Students with printed versions seem to do better in the course and student feedback suggests it is the better option. The online book requires you be connected to the Internet whenever you read it. Feedback from students in the past indicates that a printed copy is easier to use and results in better learning.

## **B. Other Materials and Resources**

Use of two websites for this course is required. (this is an online course!) All graded activity and such as quizzes, required discussion forums, and midterm tests are located in the LCC [Desire2Learn website](http://www.Desire2Learn.com). "Content", readings, and study materials are located at [macro.econproph.net](http://macro.econproph.net). Links to other resources about economics, websites, copies of in-class slide presentations, and practice quizzes are available on the Web at [macro.econproph.net](http://macro.econproph.net).

## **V. Student Learning Outcomes**

Upon completion of this course, the successful student will be able to:

1. Calculate, explain, and evaluate measures of aggregate output, aggregate income, the price level, unemployment and the balance of payments.
2. Describe the types of unemployment.
3. Describe the components of aggregate demand, their relative size in the U.S. economy, and their historical volatility.
4. Describe and explain the aggregate flows of an economy between households, firms, government, and rest-of-world sectors through product, resource, and financial markets.
5. Describe and evaluate macroeconomic policy goals and trade-offs.
6. Describe the federal budget process, surplus or deficit, and public debt, and their impact on the economy.
7. Explain verbally and graphically and apply the aggregate demand and aggregate supply model.
8. Explain and analyze the classical theory of macroeconomic equilibrium and the resulting implications for the role of government.
9. Explain and analyze the Keynesian theory of macroeconomic equilibrium and expenditure multiplier effects and the resulting implications for the role of government.
10. List and explain the tools of fiscal policy and describe and show graphically how those tools can be used to achieve macroeconomic goals.
11. Define money, describe the banking system, and explain the process by which the banking system creates money.
12. Describe and define the functions and policy tools of the Federal Reserve System and explain how actions of the Federal Reserve System affect money supply and interest rates.

13. Describe and show graphically how actions by the Federal Reserve can be used to achieve macroeconomic goals.
14. Explain and analyze the Monetarist view of policy, macroeconomic equilibrium and the resulting implications for the role of government.
15. Explain and contrast the views of the effectiveness and desirability of using activist and discretionary policy to achieve macroeconomic goals.
16. Describe the process by which exchange rates are determined and the macroeconomic impact of changes in exchange rates.

## VI. Methods of Instruction

This is a hybrid section, meaning it includes substantial (50%) online work combined with traditional face-to-face instructional methods. The online portion utilizes substantial self-study, online work, online quizzes, and online discussion. Online participation is mandatory. More detailed information on activities, scheduling, and methods is provided in Unit 1 of the course online.

## VII. Methods of Evaluating Student Achievement and Progress:

### A. The following methods are used in this class:

Type of Graded Assignment	Points Available	% of Final Course Grade
Quizzes (online)	150 points	37.5%
Worksheets (online)	80 points	20.0%
Midterm tests (online)	40 points	10.0%
Required Forum Posts	20 points	5.0%
Review Exercise	10 points	2.5%
<u>Final Exam</u>	<u>100 points</u>	<u>25.00%</u>
<b>Total for Course</b>	<b>400 points</b>	<b>100 %</b>

#### Quizzes – 150 points

Quizzes are multiple-choice and true-false question tests with only one best answer for each question. Some graphs and minor calculations may be involved. After completing each of the 15 units, students will complete a short quiz of approximately 10 questions. Quizzes are administered online through Angel. Students will be shown their score (# correct) immediately and which questions they missed. Students will not be provided correct answers after completing the quiz or later in the course. This is necessary since students will be taking the quizzes at different times and will also have the opportunity to re-take quizzes. Quizzes do not have time limits.

Any quiz may be re-taken, but each quiz may only be taken a maximum of two times. The highest of the two quiz submissions will be counted.

#### Worksheets – 80 points

There will be 8 worksheet assignments. These worksheets are assigned in various Units, but not all units will have a worksheet assignment. A worksheet consists of a table of data and/or graph about an economic situation or problem. Some initial data is provided and students are expected to calculate the remaining data. After completing the blank parts of the worksheet, you will answer a short series of questions online. The data you calculate will be needed to answer the questions. Worksheet answers may submitted as many times as the student chooses.

The last submission counts. In addition, students are encouraged to collaborate and discuss the worksheet problems on the discussion forums.

#### Midterm Tests – 40 points

A short test of 20 questions is taken at the conclusion of Units 6 and 13. These tests may only be attempted once. There is a time limit of 40 minutes for completing the test. Once a test is opened, it must be completed – it cannot be saved, closed, and re-opened later. When you open a test, be sure you have time to complete it. Some graphs and calculations may be involved – you may want to have a simple calculator and/or scratch paper

available when you take the test.

**Required Forum Postings – 20 points**

There are numerous forums available for online discussion and help. Most forums are optional and exist for students to help each other with problems, issues, or to clarify course problems. **Four forums are required, though.** Students must participate and post to each of the three Required Forums. The four Required Forums are labelled as such and are located in Units 1 (two fora), 6, and 14, at the beginning, near the middle, and the end of the course, respectively. In most cases, students will receive the maximum allowed points for their post. The instructor reserves the right to lower the points though, if a post is trivial or uncivil.

**Review Exercise – 10 points**

An online exercise to help review and prepare for the final exam will be available in the last two weeks of the course. It is worth 10 points. Answers are not graded but students will receive 10 points credit for completing the exercise.

**Final Examination – 100 points**

The final exam will be comprehensive and will have two parts. Each question counts for 2.0 points. The departmental portion will consist of 25 multiple choice questions and will count as 50 points. The instructor portion will be 25 questions that will count as the other 50 points of the final exam grade. The final exam must be proctored and taken at the Student Assessment Center unless other arrangements are made in advance through the Center.

**Extra Credit**

Extra credit is not available in this course. Students' time is better spent reworking worksheets and quizzes. It produces more points for your time investment.

**B. Grading Scale:**

The College grading scale will be used:

Course Grade		% of Possible	Minimum Points Earned
4.0	Excellent	92%	368
3.5		86%	344
3.0	Good	81%	324
2.5		76%	304
2.0	Satisfactory	71%	284
1.5		66%	264
1.0	Poor	60%	240
0.0	No Credit	0-59%	0

**VIII. Course Practices and Policies**

College-wide policies are stated in the College Catalog and include those on attendance, withdrawals, and incomplete grades. The College Catalog is available on the Internet at <http://www.lcc.edu/catalog/>. Lansing Community College provides services to students with documented disabilities. If you need accommodations, contact the Office of Disability Services at 517-483-1207 in room 2300 of Gannon Building to coordinate reasonable accommodations for your needs.

**Additional course policies and practices for this course are:****Attendance Policy**

**Students are expected to be active online every week and attend class.** Students who go more than a week (one week in summer) without logging in online into Angel and/or without attending class, without explanation or notification to the professor, are subject to Administrative Withdrawal for non-attendance. While I will attempt to give a warning by D2L "email" before dropping a student for non-attendance, I make no guarantees. It is your responsibility to monitor your activity and progress in the course and to contact me if there is an issue.

### **Scheduling and Due Dates**

A detailed schedule of assignments and weekly in-class topics is available at this link: [Schedule for Econ 202 Hybrid](#). We will be covering approximately one unit each week. Since this is a hybrid course, it is essential that students come prepared for class by having read the material for that Unit before coming to class. It is recommended that Quizzes and Worksheets be completed within the week following the in-class discussion and before the next week's class. **STUDENTS ARE STRONGLY ADVISED TO KEEP PACE WITH THE LECTURES.**

### **Mandatory Deadlines:**

- Last day to complete Quiz 1 & Post to two Unit 1 Forums: **Aug 27** (but recommended earlier)
- Last day to complete first midterm test- **October 26**
- Last day to complete Units 1-13 quizzes and second midterm test: **Dec 2**
- Last day to complete all online work and **final exam: Thursday, Dec. 10**

### **Final Exam Time & Location**

The Final Exam will be in class on the last day, Dec. 10.

### **Drops and Withdrawals**

Students are advised to familiarize themselves with the LCC Withdrawal Policy. It is available on the Internet at [http://www.lcc.edu/policy/policies\\_9.aspx#W\\_GRADE](http://www.lcc.edu/policy/policies_9.aspx#W_GRADE). Under this policy, students may withdraw themselves from the course until the end of the eighth week (4th week in summer). Between the 8th week and the end of the 14th week (4th and 7th in summer), students must be passing and have the permission of the instructor to withdraw. Such requests should be addressed to the instructor by email. There can be NO WITHDRAWALS after the 14th week (7th in summer). All students remaining enrolled in the class after the 14th week (7th in summer) must receive a final course grade. Students who have extended absences from class without discussing it with the instructor, or who miss two or more tests without notice, or who engage in uncivil activity MAY BE WITHDRAWN by the Professor.

### **Drop for Non-Attendance:**

You may be DROPPED for NON-ATTENDANCE, IF ANY of the following occurs:

- you fail to complete quiz #1 and make the first unit's required forum by the deadline.
- you do not access the course online for two whole weeks and you miss two consecutive class meetings without informing the instructor of their plans
- the student fails to meet the mandatory deadlines

**The brown M&M clause:** It is not advised to provide Jim, the professor, with brown M&M's. [Here's a clue as to why this clause is here.](#)

### **Discussion & Collaboration:**

Students are encouraged to assist each other in learning and mastering the material, particularly when dealing with the problem worksheets. A discussion forum will be provided for this use. Collaboration, however, is only for students to help each other understand the material. Trading, sharing, or publishing of specific answers to specific quiz or exam questions is prohibited and will be considered a violation of academic integrity

## **IX. Detailed Outline of Course Content and Sequencing**

The course is divided into 15 Units organized into 4 Parts according to topics. The Units of the course does not exactly follow or map to the chapters in the textbook and not in the same sequence. For more information and details see the Lessons tab of the course and the "Jim's Guide" for each unit on the Angel website. Unit numbers in the course do NOT correspond directly to chapter numbers in the book.

## **X. Transfer Potential**

For transferability information, please consult the Transfer Equivalency List on the Internet at <http://www.lcc.edu/transfer>. For additional transferability information contact the LCC Counseling Services Department, (517) 483-1255. The MACRAO Transfer Agreement simplifies the transfer of students from one Michigan institution to another and appears in the catalog.

## **XI. Student Academic Integrity**

The very nature of higher education requires that students adhere to accepted standards of academic integrity. Therefore, Lansing Community College has adopted a code of academic conduct and a statement of student academic integrity. These may be found in the Lansing Community College Catalog where violations of academic integrity are listed and defined. Such violations include both cheating and plagiarism. It is the student's responsibility to be aware of behaviors that constitute academic dishonesty. Classroom and online behavior that interferes with the instructional and learning processes is not tolerated. the consequences are addressed in the catalog under Administrative Withdrawal. Classroom and online behavior that interferes with the instructional process is not tolerated. The consequences are addressed under Administrative Withdrawal.

### **Additional Instructor's Policy**

I encourage discussion between students and the sharing of ideas and information. One of the best methods for learning and truly grasping economic concepts is to explain them to others. Students are welcome to assist each other in learning. However, the direct exchange of answers to questions without discussion, argument, or reasoned explanation is viewed as academic dishonesty. I reserve the right to reject the score of any assessment that I suspect may have been obtained dishonestly and not through student learning, even without proof of any dishonest actions by the student.
